Fast food in a healthy way

Many people are thinking about, how to live a healthier life style and how to cook healthy fast food. I suggest to do some simple things like not to use lard but to use vegetable oil instead. Another way to eat healthy fast food is to eat veggie burgers instead of fatty meat burgers.

The easiest way to style braids.

What you need: hair gummies

How it's done:

first separate your hair in two parts and then divide into three parts each. After you just put one over the other, you repeat the progress until you are at the ends. Then you fix it with gummies and you're finished.
